Calculus 1, MTWR 4:30 - 6:00 PM, Room: MATH 312.

Instructor: Héctor A. Chang-Lara.
Office: MATH 415.
Email: changlara@math.columbia.edu.
Office Hours: Friday 10-12.

Course Outline: The following is a tentative schedule and may be modified as the course progresses. Please read the relevant textbook sections before the lecture.

5/27-29 ......................... Sections 1.1, 1.2, 1.3, 1.5, 1.6
6/2-5 ......................... Sections 2.1, 2.2, 2.3, 2.5, 2.6, 2.7, 2.8
6/9-12 ......................... Sections 3.1, 3.2, 3.3, 3.4, 3.5, 3.6, 3.9
6/16 ............................................... Midterm
6/17-19 ......................... Sections 4.1, 4.3, 4.4, 4.5, 4.7, 4.9
6/23-26 ................................. 5.1, 5.2, 5.3, 5.4, 5.5
6/30-7/2 ................................. 6.1, 6.2, 6.3
7/3 ............................................... Final

Grading:
30% Homework.
30% Midterm.
40% Final.

Homework:
Written homework must be legible and explain every detail of your process for finding a solution. Just a numerical value or a disconnected set of computations won’t be enough to get credit.

Written homework should be handed to the relevant box on the 4th floor of the MATH Building (please, be sure to use the correct section).

Late homework won’t be accepted and counted as a zero. However, the two lowest homework scores will be dropped at the end of the term.

Extra Help: Dot not hesitate contact me to discuss a homework problem or any aspect of the course. You also may want to consider the Math Help room.
