BRAINFLAT

The truth is that the intellectual abilities of Alfred E. Nixon can be overstated. And without essential or relevant information, what is the significance of an academic degree, such as a math PhD?

When Ford pardoned Nixon an effect, possibly, was to set up a foundation for a dynasty: Richard I, Richard II, Richard III, etc.

In Belgium, when Leopold was criticized as a collaborator with the Germans that did not prevent Boudoin from continuing the dynasty.
Open letter to Prof. Heisuke Hironaka:

$C = E_1^5 + V^{22} + E_2^5 + R^{18} + E_3^5 + T_1^{19} + T_2^{20}$

The above algebraic variety, of dimension 6, represented in affine 7-space, is singular, having a point singularity at the origin $(0,0,0,0,0,0,0)$ of the coordinates.

The question is: How singular, comparatively, is the above 6-variety, that is, what is the comparative degree of its singularity, compared with other singularities of such a sort as to provide standards of comparison?

George Washington Christian

Who is that person?
Heisenberg Location Theory

If a person is absolutely sure that he is located somewhere in the Canton of Schwyz in Switzerland (this can be called "analytic data") then that person can properly logically deduce consequentially that he is not in Uri, which is another Canton of Switzerland.

Similarly, if a person is on the campus somewhere of the state university of either Connecticut, Massachusetts, or Rhode Island and if then the further information is given that the person is either in Connecticut or in Massachusetts then it follows, logically, that the person is not at the University of Rhode Island.
Examples of ensembles:

1. Queen Elizabeth I in Elizabethan England
2. Government and Cabinet in Israel
4. Conventional Security Council picture
5. Judges of a Tarot court of the 8th Tarot card, unanimity role
6. Conventional criminal court, judge and jury, trial of accused for murder
The Magic of the Fallible

\[ U_1 + U_2 = U_f \]
Elliott Ganshor is the son of Harry Ganshor, the famous Go player and gourmet of Locke-Ober's.

But as it happens Sept. 26, 1888 was the day of birth of T.S. Eliot and Sept. 26, 1928 was the day of birth of Ganshor. And not only that but Sept. 26, 1897 was the day of birth of Pope Paul VI.

Pope Paul VI was slightly younger than the lady of the Battle of Manila Bay, which occurred on May 1, 1891 when she was just one year old.

Review of BRATHZUKK
"Word of Ethics"

(That is, not in itself the symbol of the ethical
BRATHZUKK is rather the symbol of the
ethical challenge relating to the Gulag Archipelago,
the ACLU, etc.)

\[ AHZUKK = \text{number} = P_{r}(222) \cdot P_{r}(1380) \]  (time)

\[ BRAHZU = \text{number} = \Delta(A(126)) \]  (state)

Reference to the 222nd day of 1380 A.H.
(Islamic year) which was Feb 2, 1961

Muammar El-Qaddafi, of Tripoli, claims that his body development programme is much better than anything Sadat has.

El-Qaddafi hates Sadat and Sadat hates El-Qaddafi and has called him a "dwarf." Presumably this means that El-Qaddafi is a dwarf in a statesman or in an intellectual sense, conceivably that El-Qaddafi is mentally retarded, like an imbecile or moron or an "autistic" child.

El-Qaddafi, for his part, while not claiming presumably the intellectual distinction of a Nobel prize winning N.A.S. member scientist of Harvard, claims that the words "Super Gymnast" and "Torch," which he claims were used by Europeans and Americans in the '40's, are of magic significance and that they have relations to his body programme.
Four Stages of Revolutionary Action

The Trenton Bible

(I) The Wilson Genesis
(II) The Harding Exodus
(III) The Coolidge Leviticus
(IV) The Hoover Numbers (Remark: 16661 is a number)
(V) The Roosevelt Deuteronomy
(VI) The Truman Joshua
(VII) The Eisenhower Judges

(Remark: Former senator Taft of Ohio is not quite sure that the Trenton Bible would be accepted as canonical and suspects it might be deuterocanonical if properly viewed)

Sadat Gay-Barred

Special to Associated Press from the Melbourne Daily Telegraph, Melbourne, Australia. The Australian association called the "Down Under League of Gay Bar Owners" has revealed to a reporter from the Melbourne Daily Telegraph that his association, the League, has set up a special project in the event of the possibility of a visit of President Sadat (of Egypt) to Australia. It has been arranged that Mr. Nicholas Hasluck, an Australian writer, will be in charge of the project, which is called "Project Sphinx."

True or False Question

Statement: President Jimmy Carter is suffering from the disease of xanthochromatosis, the same disease which previously affected the careers of Nixon and Agnew, so that the disease has presumably jumped the gap of the apparently immune northern republicans Ford and Rockefeller and reinjected Air Force One via the person of Jimmy Carter.

☐ The above statement is true
☐ The above statement is false

LEN NLN

This is a palindrome.
Meditative Commentary

Well, McClellan ran against Lincoln in the year 1864 and Grant, of Ohio, was elected in 1868 and in 1872. But then McClellan later became Governor of New Jersey, of which the state capital is Trenton. He was a democrat like Wilson.

Thus, it is conceivable that in some mysterious fashion that the Trenton Bible goes back directly from Wilson to the political McClellan, as of 1860, and thus that it somehow mysteriously bypasses all the presidents in between, from Johnson up through Taft.

[ed note: appended to The Trenton Bible]

Referendum

Choose the of your favored party. One choice only.

Party A

☐ NATO is good and defends and has defended Free Europe and western civilization against the threat from the communist world behind the Iron Curtain, but SEATO is stupid and caused a big waste of American taxpayers money particularly in the era of Johnson, the great hawk and "mad bomber.

Party Alpha

☐ SEATO should be viewed respectfully, when compared with NATO. Since its creation in 1954, SEATO has, effectively, played the role of refining the crude petrol of NATO, and this refining and contrapuntal function of SEATO should not be scornfully dismissed with a verdict of criticism unless NATO should also be condemned.
March 15, 1979

Not much is known about S.T. McNamara, but it is known that he is not a candidate for reelection to the presidency. Indeed, he has officially said that if nominated he will not campaign or support the campaign, and moreover, that even if elected, he will refuse to serve as president.

The World of Buddhist Art
Conjectural Evaluation

East of Poland and Iraq and Turkey, east of Finland and the "satellites," north of Indonesia and Australia and not including the Phillipines or Guam or Hawaii or any of the polynesian or melanesian island areas of the Pacific ocean area. This is the "zone", as it were, of buddhist art.
1522 Meditations on Chaos

Jan 9, 1522: Hadrian II elected pope in absentia. Was Dutch monk was in Spain as inquisitor.
Jan 9: Nixon born.
Feb 2, 1522: Ferrari born.
Feb 2: Giscard born.

Richard N. Giscard d'Estaing van Dyke
Center of Chaos?
Open Letter to Sen. Javits

Dear Jacob,

If you will simply repent of the wrong (très en français) of which you are guilty in relation to me personally and if you yourself wish to make a pilgrimage to my ranch to make amends as well as properly apologize and beg forgiveness then there is no question of labor. There isn’t any labor by any person, persons, or parties that’s of concern or relevance then in relation to these personal issues. Labor is then an external thing, of concern conceivably to engineers working for Boeing but not to you or me. The long standing singularity of the relation between two individuals can be resolved quite independently of whatever may concern the Boeing engineers.

Sincerely,

Evan Trueman
