

Math Teachers

Educator's Ally is seeking Math Teachers for independent private day and boarding schools across the United States. We partner with schools to identify talented, student-centered educators who bring strong content knowledge, a commitment to inclusive teaching, and a passion for working with young people.

We welcome candidates with experience at the elementary, middle, or high school level, across all math disciplines.

Position Overview

Math teachers in independent schools are nurturing, intellectually curious educators who design engaging, developmentally appropriate learning experiences. Successful candidates foster inquiry, critical thinking, and a joy for learning while supporting students' academic, social, and emotional growth. Teachers are expected to collaborate closely with colleagues and contribute meaningfully to the broader life of the school community.

Responsibilities

Responsibilities may include, but are not limited to:

- Teaching Math at the elementary, middle, or upper school level
- Designing and delivering engaging, inquiry-based lessons that support diverse learning styles and developmental needs
- Developing and adapting curriculum based on student needs and school standards
- Using student-centered, proficiency-based, and project-based approaches to instruction
- Integrating technology and real-world applications to deepen mathematical and scientific understanding
- Assessing student learning using a range of formative and summative methods
- Providing timely, constructive feedback to support student growth
- Maintaining regular communication with families regarding student progress and expectations
- Collaborating with department members and grade-level teams on curriculum development and alignment
- Supporting a classroom culture that values curiosity, inclusivity, and belonging
- Contributing to school life beyond the classroom through advising, extracurriculars, athletics, clubs, admissions, or residential life (role-dependent)

Qualifications

Successful candidates will typically have:

- Expertise in one or more Math disciplines (e.g., Elementary Math, Pre-Algebra, Algebra, Geometry, Trigonometry, Precalculus, Calculus, Statistics, Linear Algebra, or related areas)
- A Bachelor's degree in a relevant subject area (Master's degree preferred)
- Prior teaching experience at the appropriate grade level
- Strong understanding of student development and best practices in teaching and learning
- Experience using instructional technology effectively
- Commitment to collaboration, professional growth, and inclusive community building
- Strong communication, organization, and interpersonal skills
- Enthusiasm for contributing to the academic and extracurricular life of a school

Why Independent Schools?

Independent schools value:

- Deep relationships between students and faculty
- Small class sizes and innovative teaching
- Collaboration and professional growth
- A whole-child approach to education
- Faculty involvement in vibrant academic and extracurricular communities

If you are interested in teaching Math in a private independent school setting anywhere in the U.S., we encourage you to apply.
